Profile:

I am a second-year Computer Science undergraduate at the University of York and a Machine Learning Intern at FlyRank AI. I have practical programming experience across Python, Java, C/C++ and SQL, with experience applying tools including Pandas, NumPy and PyTorch to machine learning and data-focused projects.

I am interested in developing reliable systems and applying software engineering principles to real-world problems. Also, I am currently developing my portfolio to document my technical projects, learning journey and practical experience developing software and exploring machine learning applications.

University Grades

Year 1: 2:1 (69%)

Year 2: 2:1 (62%)

A-Levels

Computer Science: A, Maths: A and Physics: C.

GCSEs

Biology: 8, Chemistry: 7, Computer Science: 7, English Language: 7, English Literature: 6, French: 8, History: 8, Maths: 7, Music: 7 and Physics: 8.

Work experience

In 2023 I completed the Cisco Pathways Online Work Experience. This was week-long series of online lectures on topics such as; 'A Day in the Life of a Software Engineer', 'Ethics in the Workplace' and 'Cyber Security. We also had a group-based project to create a computer-science based business and then present our ideas to the other attendees at the end of the work experience.

For 2 years, I volunteered at my local Oxfam store every Saturday morning. The role involved me working on the till, experiencing a customer-facing role, assisting with customer enquiries, maintaining good time-keeping and working as part of team.

Duke of Edinburgh Award

I completed Bronze, Silver and Gold 'Duke of Edinburgh' awards. The challenges consisted of volunteering, learning / refining a skill, physical activity, group orienteering trekking expeditions and a residential team building week.

Interests:

Electric Guitar - playing to a grade 8 level (ungraded).

Kendo - Japanese swordsmanship.

Warhammer 40000 (tabletop strategy game).

I was also a part of Scouting for 10 years, going through Beavers, Cubs, Scouts and Explorers, giving me a love of adventure and trying new challenges.
